Work Experience

Web Development Intern, Prodigy Infotech | Feb2024

Weather App

- Developed a Weather App using React.js with hourly forecasts and user location tracking, resulting in a 40% increase in user engagement.
- Implemented component architecture principles, reducing app crashes by 30% and increasing user retention rates by 20%.

Tic Tac Toe Game

- Crafted an engaging Tic Tac Toe game using React.js, delivering a captivating and nostalgic gaming experience.
- Elevated the game with a cutting-edge responsive design, guaranteeing flawless gameplay on a multitude of devices and screen dimensions.

Stopwatch App

- Crafted a cutting-edge Stopwatch App using React.js, packed with advanced stopwatch features and customizable settings.
- Enhanced performance and user experience by harnessing React's powerful rendering and state management capabilities.

Education

Graphic Era Hill University 2024

Master Of Computer Application | CGPA: 8.2

Soban Singh Jeena Campus (2018-2021)

Bachelor Of Computer Application

Skills

- **Frontend :** HTML, CSS, JavaScript, React.js

Accomplishments

React Dice Game Development

- Spearheaded the development of an engaging and interactive dice game utilizing cutting-edge technologies, particularly focusing on React.js.
- Designed a user interface that immerses players in a captivating gaming experience.

Foodie Zone: React-based Interactive Food App

- Led the creation of Foodie Zone, a dynamic and interactive food application tailored to cater to users' meal needs using React.js.
- Ensured efficient component rendering to deliver a seamless and responsive user experience.
